### UPGRADE YOUR DESKTOP AND UPGRADE YOUR BUSINESS

**Date:** Wednesday, November 5, 2008  
**Time:** Registration at 8:30am, 9:00am start, 11:30 finish  
**Venue:** Marriott Courtyard,  
3 Technology Drive, Westborough, MA 01581

Is your company looking for new ways to improve decision-making, productivity, and collaboration? Is your IT team challenged by evolving security threats, rising deployment and support costs, and increasingly complex desktop infrastructures?

Office Professional Plus 2007 brings together a host of innovations designed to help your people work efficiently and effectively. In addition, the Windows Vista Business operating system is part of the largest release from Microsoft in a decade—bringing your business significant benefits and improvements. In the hands of each of your employees, these products can be powerful tools—improving the way your people work, as well as supporting and enhancing your IT infrastructure and management.

We will also discuss the right way to go about managing these implementations:

- ✓ How best to purchase these products.
- ✓ How to pilot these technologies.
- ✓ How to roll them out to your entire user base.
